
Hive

COMPLEMENTS

Atelier Oï

Description

Ottoman and tables are combined to create an original and poetic furnishing complement. The 3D surface of the former results from the assembly of small leather "leaves," discarded from the manufacturing process. The latter issue from a folded sheet of metal. Handcrafting skills and geometries enhance the green calling of this accessory that is inspired by the structure of the beehive.

Technical information

Seat (H61P):

multilayered wood panel, MDF wood fibre panel, shaped polyurethane, polyurethane, cover in polypropylene and polyamide
