
E1

CHAIRS

Antonio Citterio

Description

It combines geometry and softness, expert woodworking skills and technology. Designed with important details, including especially the padded body that runs along the perimeter of the seat and backrest. The wooden frame visually reduces the volumes of E1, concealing the foam, whose thickness guarantees remarkable comfort and a certain degree of flexibility.

Technical drawings

B&B Italia reserves the right to make technological and aesthetic improvements to its models, including changes to the sizes and materials, without notice. The technical drawings do not define the details of the product. The measurements shown are indicative and may undergo changes. In particular, the dimensions relevant to the padded parts are subject to usage tolerances over time caused by the normal adjustment of the padding. For the specific information, please contact the dealer closest to you.
