

SILHOUETTE SOFA

Design by GamFratesi

GamFratesi's Silhouette Sofa series is characterised by the smooth curve of the sofa's back, which seamlessly combines a strong character with a simple, organic expression. With an angular front view and defining piping details, the sofa appears compact and economical with space, yet is light and spacious and offers generous seating.

The family comprises sofas in different sizes and heights, with legs available in metal or solid wood and a number of selected textiles to choose from. The different configurations and strong structural language make the sofa a natural choice for defining space and creating intimacy in large and small areas in private and public contexts.

PRODUCT DETAILS

- / Modern 2- and 3-seater sofa series with organic expression offering low-and high back options.
- / The high back works particularly well in creating defined or intimate areas in offices/open spaces.
- / Available in a variety of fabrics and leathers.
- / Suitable for a wide variety of private and public environments.
- / Qualified for contract use.

MATERIAL

SHELL / Moulded reinforced fibre glass upholstered with PU foam comprising foam of varying hardness.

SEAT CUSHION / Made of PU foam of varying hardness.

SEAT AND BACKREST CUSHIONS / Stuffed with a combination of feathers and foam pieces.

OAK

SMOKED SOLID
OAK

PIPING

Cognac leather, black leather or a piping matching the fabric.

FABRIC DIRECTION

The direction of the fabric varies depending if the sofa is low-or highbacked or a 2- or 3-seater, as they are upholstered lengthwise or widthwise. Therefore, this might create a visible difference in the direction of the textiles when combining different sofa variants. The difference varies from textile to textile, but is most noticeable in structured or striped upholstery.

CONSTRUCTION

The sofa outer shell is made of moulded reinforced fibreglass and upholstered with a combination of PU foam harnesses.

The seat cushion is made of a combination of PU foam harnesses and both arm and back rest cushions are stuffed with a combination of feathers and broken foam.

The 4 legs are assembled but the customer have to connect the base with 4 metric screws.
