How to reposition the lampshades -

* Before making any change in this lamp please switch off the electrical power.

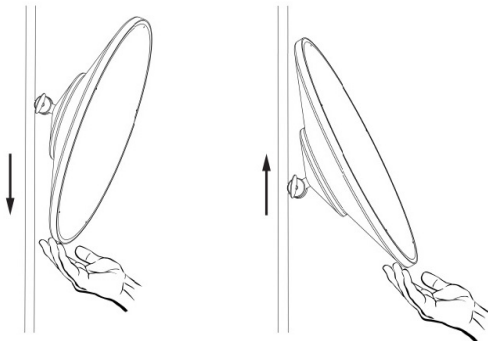

1.

Before adjusting the lampshade position please support the lampshade with your hand on its lower side in order to prevent a fall. Now open slightly (not more than half a round!) the metal clip.

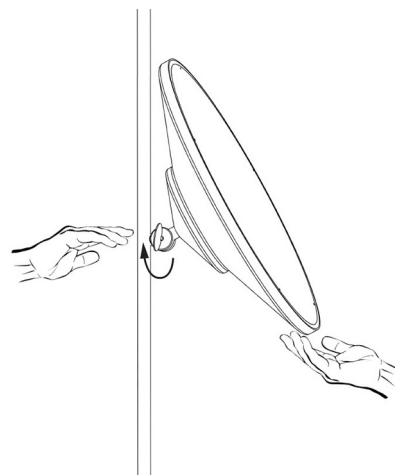

2.

Reposition the lampshade in one of the 2 directions possible: up or down.

3.

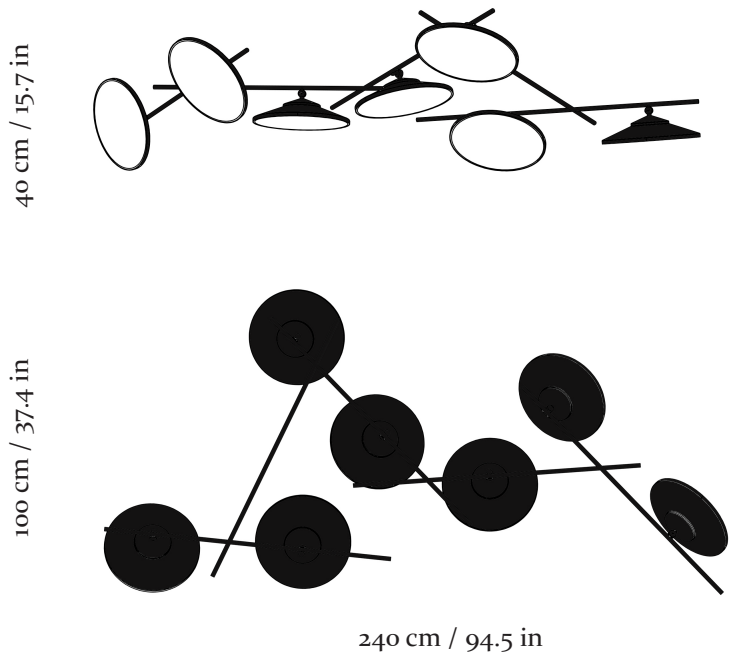

After you are happy with the new positioning – please close the metal clip in order to secure the lampshade in its new angle.
