

Wire Chair

Charles & Ray Eames, 1951

Wire Chair DKX

Wire Chair DKR

Wire Chair DKW

Designed by Charles and Ray Eames out of welded steel wire, the Wire Chair is a variation on the theme of the organically shaped one-piece seat shell, combining transparent lightness with technological sophistication. The seat shell can be joined with a variety of different bases. The Wire Chair is available without upholstery, with a seat cushion or with seat and back cushions. Due to its shape, the two-piece cushion is also known as the „Bikini“ pad.

The Wire Chairs are available with a powder-coated finish or, depending on the model, in a chrome-plated version. DKR and DKX models with a powder-coated finish are also ideally suited for outdoor use.

Materials

- **Upholstery:** unupholstered, with seat pad or with seat-and-back pad. Upholstery can be removed and reattached, in Hopsak fabric or leather.

Wire Chair DKX

- **DKX:** Dining Height K-Wire Shell X-Base
- **Back and seat:** bent and welded steel wire, chrome-plated or powder-coated finish. The powder-coated version is suitable for outdoor use.
- **Base:** four-legged tubular steel base. Fitted with glides for carpet; felt glides optionally available for hard floors.

Wire Chair DKR

- **DKR = Dining Height K-Wire Shell R-Wire Base**
- **Back and seat:** bent and welded steel wire, chrome-plated or powder-coated finish. The powder-coated version is suitable for outdoor use.
- **Base:** four-legged wire base with cross struts. Fitted with glides for carpet; felt glides optionally available for hard floors.

Wire Chair DKW

- **DKW:** Dining Height K-Wire Shell Wood-Base
- **Back and seat:** bent and welded steel wire, powder-coated finish in basic dark.
- **Base:** wood base in solid maple stained finish with round steel cross struts. Fitted with glides for carpet; felt glides optionally available for hard floors.

Wire Chair DKR Outdoor

Wire Chair DKR and DKX models with a powder-coated finish and without covers are also ideally suited for outdoor use.
