Aluminium and 1600 option
assembled only
9 stock colours or custom colours
available on request
Construct your kitset by following
our [instructional video](#)

STORY

"This form is based on the structure of a geometric polyhedron. Every piece is identical, making home assembly easy. The way it grows outwards with fingers reminds me of coral. I love to snorkel over reefs exploring the amazing detail and structure of all the various corals. Our kitsets significantly reduce freighting, which is one of our ways of doing what we can to help preserve our beautiful sea and land environments." - David Trubridge

CORAL NATURAL

Bamboo Plywood with Nylon Clips
E27 bulb holder with 2m of electrical
cord
