**Tandem Seating** is a robust modular system enabling comfortable and relaxed seating in public waiting areas, for example at airports or train stations. It is designed to withstand an exceptional level of wear-and-tear. The resilient upholstery of both the seat and the backrest can be changed on site. The generous seat surface and the sandwich structure of the upholstery offer great seating comfort. The simple modular system enables the units to be added together at will or linked with table tops to form an enclosed configuration.

**Programme features**

The ETS system for waiting areas can be configured both in single rows (with 1-6 seat or table units) and double (back to back) rows (with 5 or 6 seat or table units each). Double-row configurations are also available with double table tops. The frame and armrest supports are made of chromed cast aluminium. Seat and backrest upholstered units with welded inlays in vinyl or leather. Armrest surface made of polyurethane. Table tops in black compact laminate. T-form supporting bar in powder-coated basic dark. Single-row combination with T-form legs, double-row combinations with double legs. Frames on synthetic glides, with either felt pads for hard floors or anti-slip glides for slippery floors.

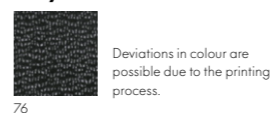

All measurements in **millimetres** and **inches**, established pursuant to EN 1335-1

**Charles & Ray Eames** feature among the most important figures of twentieth century design. Their work is multi-faceted: they developed furniture, produced films and photographs, organised exhibitions and designed and built their own house as a pioneering endeavour.

**Vitra** has produced and marketed the furniture designs of Charles & Ray Eames since 1957. First producing under license, Vitra obtained exclusive rights to all Eames products for Europe and the Middle East in 1984. Consequently, we are the sole legitimate manufacturer of Eames designs in this part of the world. The brand gives you the security of owning an original product by Charles & Ray Eames.
