## Identification

Name	<b>BALLOONS SMALL</b>
Type	table lamp (T)
Collection	BALLOONS
Line	Exclusive Line
Designed by	Lucie Koldová, Dan Yeffet

**BROKIS**

## Description

### Features

Balloons is a collection of unique simple timeless lights that are originally based on an idea of transparent invisible balloon with a floating reflector. This series is compounded from one table model and two floor models creating an ambient artistic object. The biggest piece of the collection is pushed to the limits in a sense of possible dimensions of hand made blown glass. The look and the idea of the clear translucent pieces fully provide a magical and fascinating clarity of glass.
