

TECHNICAL SPECIFICATIONS VISU WIREBASE

“The task was to create a personal interpretation of the ever-relevant plywood chair. I wanted my chair to have an unobtrusive and timeless nature that is familiar but never boring and without sacrificing function or ergonomics. Designing a family of chairs, visually related but for different functions, was an iterative and thorough process lasting nearly two years. In the end, I think every detail is exactly as it is supposed to be.”

Mika Tolvanen on the design

PROCES	Shell is formpressed from wood veneer, then lacquered. If specified, then padded with fire-resistant foam and fully upholstered with textile. Steel wire base is CNC-bent and powder-coated (coloured versions) or in brushed steel finish.
