

753 DUET CHAIR

Two pieces of wood work as a duet, creating the overall shape of the Duet chair. They are stacked one on top of another to form the backrest, and while one extends to create the arm and front legs, the other turns to form the back legs. Originally created as a variation on the classic Thonet bent-wood tradition, the Duet Chair takes on a quiet yet graceful demeanor that is not unlike the German-Austrian classic original. Designed by neri&hu and manufactured by De La Espada for the neri&hu brand.
